

The Young Vet Network NI as part of the NIVA and in association with Boehringer Ingelheim would like to invite you to our upcoming Clinical Club discussion meetings.

For our Small animal colleagues, we are meeting on **Thursday 26<sup>th</sup> November at 8pm.**

For our Large animal colleagues, we are meeting on **Tues 9<sup>th</sup> December at 8pm.**

**These meetings will be facilitated online by Zoom and give you the chance to relax and chat in an informal atmosphere.**

The meetings will be chaired by other experienced colleagues who will be on hand to guide us through our difficult cases.

These events are free of charge and can be counted as CPD. It is important attendees are pre-prepared with a case, query or subject they would like to discuss. This can be something routinely encountered or something more 'out of the ordinary' you have dealt with recently that has been a particular challenge. Ever wondered what everyone else does and what the current thinking is? Why not log in and find out.

Laboratory results, radiographs and/or photos are welcomed and can be forwarded to Chris prior to the event. The success of previous events has depended on all participants bringing along cases or material for discussion.

If you are interested in attending please contact Chris Elliott –  
[chris.elliott@boehringer-ingelheim.com](mailto:chris.elliott@boehringer-ingelheim.com) / 07771937282

Please have a think about the cases you are seeing over the next few weeks, take some photos, send through some pictures and we can chat through these cases together on the night. It will be well worthwhile for everyone involved and we look forward to seeing you there.

The chair of each event will pick the best/most challenging case and the winner is in line to win a bottle of Gin and £50 cash!

Kind Regards,

**YVN NI**
