Animal Health Regulation: Live Webinars with Expert Panel

The EU is making changes to its animal health laws, therefore Export Health Certificates (EHCs) and the Notes for Guidance used to move goods to Northern Ireland or export to the EU need to be updated.

EHCs for composite products changed in April, and a small number of new EHCs were introduced at that time as well. The remaining new EHCs for all products of animal origin, live animals and germinal products will need to be used from 21 August 2021. Current EHCs signed before 21 August may be used until October for goods on route to the EU.

Around 30 EHCs will be available to view on form finder from early July 2021 with the rest available on 29 July 2021. We will provide further information shortly on the updated EHCs and when they will be available for use.

We will be holding webinars for traders with a panel of experts to answer your questions on the new EHCs. Further webinars will be held in August and we will provide details shortly.

Please register for webinar(s) below which are relevant for the goods you export.

If you have any questions about the webinars please contact: traders@defra.gov.uk

Kind regards

Trader Readiness Team
